

GAS SAFETY AFTER EARTHQUAKES

DO NOT TURN OFF THE GAS UNLESS:

**You smell natural gas
You hear a hissing sound**

or

You see the gas meter dial spinning

IF YOU TURN OFF THE GAS

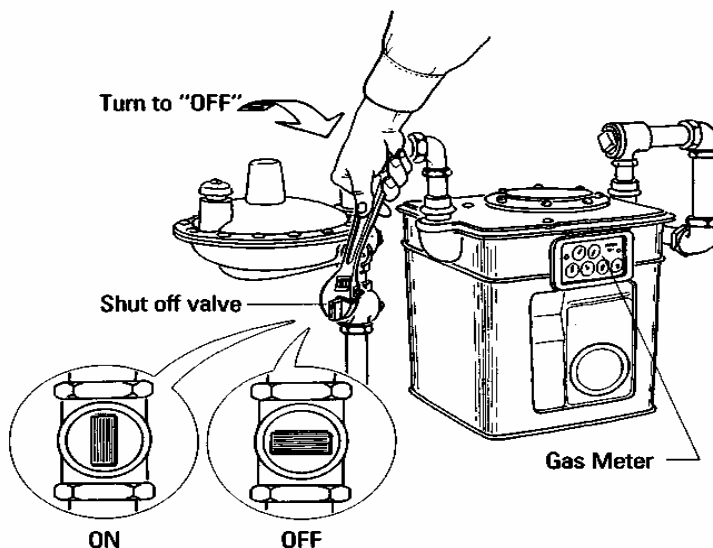

**PG&E must turn it back on for you...
Don't do it yourself!**

**Check your gas valve periodically by
turning it 1/8 turn.**

This won't turn off the gas, but it will keep it ready.

**HERE'S HOW TO TURN OFF THE GAS:
Turn the valve ¼ turn, in either direction,
so that it is crosswise on the pipe.**

GAS SHUT-OFF
